

## Rules For Tournaments

### **2-man tournament rules:**

We follow the rules of the current United States Volleyball Association (USVA) rule book unless otherwise stated by the Tournament Director before players sign up.

### **4-man tournament rules and disclaimer:**

We view 4-man play, both indoor and outdoor, as a combination of outdoor 2-man and indoor 6-man. In the absence of a 4-man rule book, we have combined the rules for 2-man and 6-man to create rules for 4-man.

1. There is no tipping (like 2-man)
2. There is no centerline so players can cross underneath the net as long as they don't interfere with their opponent (like 2-man)
3. You can not touch the net (like 2-man)
4. There is no back row player (like 2-man)
5. You do not need to rotate but you do need to maintain service order (like 2-man)
6. It is block plus three (like 6-man)
7. You can receive serve and hits with an open hand (like 6-man)
8. Players do not switch sides on points per game. Side changes happen at the start of each new game. (like 6-man)
9. You can not hand set over the net even if you are square (my rule based on experience)

### **6-man tournament rules:**

We follow the rules of the current United States Volleyball Association (USVA) rule book unless otherwise stated by the Tournament Director before players sign up.

### **Balls**

1. Balls to play the league with are provided by the League Director. If both teams agree to use a different ball that will be fine, else the provided balls will be used.

### **Prizes**

1. Prizes will be awarded to each first place team after playoffs. Second place teams maybe awarded prizes after playoffs.
2. 6-man team will be given 6 prizes for the main players, 4-man team will be given 4 prizes for the main players, doubles teams will be given 2 prizes for the main players. For example, if your 6-man team has ten players (main and sub) and your team wins, only six prizes will be awarded, not ten
